

 STAPES

ACT IR SYNC TECHNOLOGY

UHF transmission signal is wider and
the signal is more stable

PRO

PROFESSIONAL SOUND SYSTEM

SIZE AND PARAMETERS

WAIST BAG

HANDHELD MIC

Technical Parameters

Carrier frequency band	UHF 640 ~ 690MHz
Modulation mode	FM
Oscillation mode	PLL phase locked frequency synthesizer
Frequency stability.....	± 0.0005%
Sensitivity input	6dB when the offset is equal to 25KHz μ S/N>60dB at V
Maximum deviation.....	± 45kHz
Band width	40MHz
Comprehensive S/N ratio.....	>108 dB
Maximum output voltage balanced type:.....	- 20dBV/100 Ω ;
Unbalanced type:.....	- 4dBV/5K Ω
Output socket.....	XLR balanced type and 6.3 ϕ Unbalanced socket
Working effective distance.....	generally 120 meters (open place)
Power supply.....	100 - 240V
